PROFESSIONAL SUMMARY

Senior ODI Developer with 14+ years of overall experience, including 8+ years focused on Oracle Data Integrator (ODI) and enterprise data integration. Experienced in designing and supporting ETL/ELT pipelines, reusable mappings, Load Plans, Knowledge Modules, CDC/SCD patterns, data migration and performance optimization across enterprise environments. Strong hands-on foundation in Oracle Database, SQL/PL/SQL and integration technologies, with exposure to Snowflake and Python-based automation. Currently building knowledge in **modern data engineering and AI/Agentic AI** to complement a strong enterprise integration background.

CORE COMPETENCIES

Data Integration	Oracle Data Integrator 11g/12c, ETL/ELT, Load Plans, Knowledge Modules, reusable mappings, CDC, SCD, data migration
Data Engineering	Data pipelines, data quality, data movement, transformation, database optimization, integration patterns and operational support
Databases	Oracle Database, SQL, PL/SQL, partitioning, performance tuning; exposure to MySQL, SQL Server and Snowflake
Integration	SOA Suite, MuleSoft, REST/Web Services, XML, JSON, XSLT, FTP and database adapters
Cloud / Modern Data	Snowflake exposure, cloud data concepts, enterprise data-platform integration and modernization
Automation / AI	Python/Flask utility development; Oracle Agentic AI Foundations Certified; practical interest in AI/ML and emerging data-engineering trends

PROFESSIONAL EXPERIENCE

Cognizant — Kolkata

JUN 2019 – PRESENT

Senior Developer / ODI Integration Consultant

- Design and develop enterprise data-integration solutions using Oracle ODI 11g/12c, SQL/PL/SQL and Oracle Database, covering mappings, packages, procedures, Load Plans and Knowledge Modules.
- Build and support **ETL/ELT data pipelines**, including CDC/SCD patterns, data migration, reusable mappings and integration workflows for large enterprise landscapes.
- Apply SQL and database optimization techniques including partitioning and query tuning to improve reliability and processing performance.
- Work across integration technologies including **SOA-based services, MuleSoft, REST/Web Services, XML/JSON and file/database adapters**.
- Participate in requirement analysis, solution design, technical troubleshooting, stakeholder coordination, testing, deployment and production support.
- Contributed to Snowflake-to-SPH integration development/testing and SaaS integration initiatives involving work definitions and downstream data flows.
- Delivered data-quality and integration improvements including special-character removal and Digicore-removal initiatives across enterprise flows.
- Conduct knowledge-sharing sessions on ODI best practices, SOA-ODI integration and performance tuning.

PROFESSIONAL EXPERIENCE — CONTINUED

TCS — Gitanjali Park, Kolkata

JAN 2016 – MAY 2019

Senior Associate

- Coordinated with application teams to investigate incidents, resolve issues and reprocess fallout transactions using operational reports.
- Supported deployment and migration of SOA/ODI code to higher environments, including regression and unit testing.
- Performed root-cause analysis and implemented corrective actions for production issues.
- Provided Tier-3 support and SME-level technical input to internal and external stakeholders.

TCS — Gitanjali Park, Kolkata

NOV 2011 – DEC 2015

Senior Process Associate

- Worked in US banking mortgage back-office operations with focus on process accuracy, exception handling and timely resolution of business transactions.
- Built an early foundation in structured problem solving, operational controls and cross-team coordination.

SELECTED IMPACT & PROJECT HIGHLIGHTS

Enterprise Data Integration	Designed and supported ODI-based integrations across complex enterprise application landscapes, balancing reusable development with production reliability.
Integration Modernization	Contributed to Digicore-removal initiatives across corporate and ERP integration landscapes and supported stable go-live activities.
Snowflake Integration	Worked on Snowflake-to-SPH integration development and testing, extending enterprise integration capabilities toward modern cloud data platforms.
SaaS / Oracle FBDI API Integration	Developed SaaS integration work involving Oracle FBDI APIs and downstream data flows.
Exit Survey HCM API Development	Contributed to development of the Exit Survey HCM API integration for downstream enterprise data processing.
Support Modernization AI Initiative	Developed a Python/Flask-based utility dashboard as an innovation initiative to consolidate support tools, reports, monitoring and automation for faster RCA.

PROFESSIONAL DEVELOPMENT

Focused on expanding from enterprise ODI/data integration into **modern data engineering, Snowflake, Python automation and practical AI/Agentic AI concepts**. Interested in applying these capabilities pragmatically to enterprise integration, operational efficiency and data-platform modernization.

TECHNICAL SKILLS

Oracle & ODI	Oracle Data Integrator 11g/12c, Oracle Database, ODI Knowledge Modules, Load Plans, Packages, Procedures, Variables, CDC, SCD
SQL & Database	SQL, PL/SQL, query tuning, indexing concepts, partitioning, database troubleshooting
Data Engineering	ETL/ELT, data pipelines, data migration, data warehousing, reusable transformations, data quality and operational support
Integration	SOA Suite, MuleSoft, REST APIs, Web Services, XML, JSON, XSLT, FTP, JDBC/database adapters
Modern Data & Automation	Snowflake, Python, Flask, Linux/Unix, Git; exposure to cloud data engineering concepts

EDUCATION

Bachelor of Science in Biology William Carey College, Serampore	2010 Final Grade: 57%
Professional Development Studies — Diploma in Software Engineering NIIT, Kolkata	2011

CERTIFICATIONS

- Oracle Agentic AI Certified Foundations Associate
- Oracle Cloud Infrastructure Certified Foundations Associate (2024)
- MuleSoft Certified Developer — Level 1 (Mule 4)
- Oracle Certified Foundations Associate

LANGUAGES & INTERESTS

Languages: English, Hindi, Bengali **Interests:** Emerging technology, AI/ML and data-engineering trends, technology blogging, knowledge sharing, problem solving and hackathons.

CAREER PROFILE

Enterprise integration professional with a strong ODI foundation and a growing focus on modern data platforms. Looking to contribute to data-integration, data-engineering and technology-modernization initiatives while continuing to build practical capabilities in Snowflake, Python automation and AI.
